Dear Anna,

Please find attached a letter - presentation of the Bulgarian company GTA Petroleum and its latest product.

Dear partners,

Our company, which has experience in the energy field with its own base for storage and forwarding of fuels in Byala, is also engaged in the export of denatured 96% alcohol by a common method.

The quality of the latter is in accordance with EU Regulation 110/2008, and our selling price is very competitive. We have an export capacity of 250,000 liters per month

Best regards

Chavdar Petkov
